

SALES SYSTEM

Customer Journey + Sales Collateral

A practical sales kit for qualifying home-service operators, routing them to the right starting point

Built from the Framework / Ops v1.1 brand system: operator language, conservative math, and the OPS Assessment as the gateway product.

Qualify

Revenue, owner role, office capacity, buying triggers, and disqualifiers.

Diagnose

Paid OPS Assessment before proposal. No blind retainer scopes.

Prescribe

One recommended path with named deliverables, 30/60/90 milestones, and conservative ROI.

2-4 WEEKS FROM FIRST CONTACT TO KICKOFF

Customer Journey Map

Rule: the OPS Assessment is the gateway. The visual path should never imply a prospect jumps straight from discovery to retainer.

ONE OFFER, ONE NEXT STEP

Offer Ladder

AI Readiness \$297 Async assessment + 30-min review BEST FOR Curious but early	Tech Stack Audit \$497 Software usage audit + debrief BEST FOR Bought tools, weak adoption	OPS Assessment \$997 Diagnostic + report + roadmap BEST FOR Default gateway	Sprints \$2,000 SOP, automation, or dashboard build BEST FOR Specific gap	Active Retainer \$4,000/mo Core 6-month operating build BEST FOR 3+ triggers and capacity
---	---	--	--	--

Proposal rule: diagnose first, then recommend one path. Do not present the full tier menu in a proposal.

\$997 GATEWAY PRODUCT

OPS Assessment One-Pager

What it is

A paid operational diagnostic covering finance, operations, people, and technology. It produces a prioritized problem matrix and 90-day roadmap.

What gets reviewed

P&L, job costing, FSM/CRM walkthrough, org chart, SOPs, cash position, lead source and close-rate data if tracked.

What it protects

It prevents blind scopes, fake ROI math, and retainer proposals before the real operating problem is visible.

Finance

Gross margin by job/service line, cash visibility, DSO, monthly close

Operations

Dispatch, scheduling, job closeout, production handoff, callbacks

People

Owner bottleneck, role clarity, manager cadence, hiring/onboarding

Technology

FSM/CRM adoption, QBO connection, reporting, automation surface

30-45 MINUTES

Discovery Call Guide

Revenue and structure

Trailing 12-month revenue, employees, office staff, service mix.

Owner bottleneck

Where does every estimate, discount, schedule change, or cash decision still route through the owner?

Operational pain

Top 3 problems in the owner's words. Listen for recurring problems, not isolated fires.

Financial signal

Gross margin, net profit, cash strain, job costing visibility, AR/DSO.

Implementation capacity

Who can meet weekly, pull data, update tools, and enforce SOPs?

Budget and urgency

Ask directly. No coy budget dance. If there is no budget and no urgency, keep warm.

Red flags: active turnaround, owner wants results without accountability, consultant carousel, no decision maker, no office staff to implement, ego-locked owner.

ONE DIAGNOSED PATH

Proposal Walkthrough

- | | | |
|---|---------------------------|---|
| 1 | What we heard | Owner situation, growth stage, pain, urgency. |
| 2 | What it costs | 3-5 operational gaps with cost at current revenue. |
| 3 | What we will build | Named deliverables: job costing, cash flow, SOPs, dashboard, handoff cadence. |
| 4 | Timeline | 30/60/90 milestones, dependencies, client-side work. |
| 5 | Investment | One recommended tier or sprint. No tier menu. |
| 6 | ROI frame | Downside, conservative case, upside. Implementation caveat included. |
| 7 | Decision | Specific next step and 7-day expiration. |

SIMPLE SALES MOTION

Follow-Up Cadence

Connection accepted	SAME DAY	No pitch. Ask one operator-level question.
Discovery complete - Go	SAME DAY	Recap pain and send OPS Assessment next step.
Intake missing	2 BUSINESS DAYS	Remove friction. Explain intake protects scope.
Assessment delivered	LIVE DEBRIEF	Walk through ranked problems and 90-day priorities.
Proposal sent	LIVE WALKTHROUGH	Review one recommendation, investment, ROI, and deadline.
No decision	DAY 3 / DAY 7	Clarify blocker. Ask for a yes/no decision.
Lost but fit	MONTHLY	Send benchmark or useful ops note. Stay warm.
