

THE OPERATIONAL SYSTEM

framework/ops

A clean, drop-in brand identity for the fractional automation & AI practice serving home-service operators. Built for web, print, and gear.

Contact

A system at work.

A 3×3 grid: six solid emerald cells plus three signal dots along the bottom-right diagonal. Reads as a system mostly built, with signals transmitting. It descends directly from the original logo — evolution, not reinvention — and works as a standalone mark without the wordmark.

CONSTRUCTION

Drawn on a 200×200 unit square. Cells are $48u$ with $10u$ corners, an $8u$ gutter between them. The three signal dots are $9u$ radius, centered at $(156,100)$, $(100,156)$, and $(156,156)$.

CELLS

6 × solid
 $48u \times 48u$ · radius $10u$
 $8u$ gutter

DOTS

3 × signal
 radius $9u$
 bottom-right diagonal

FILL

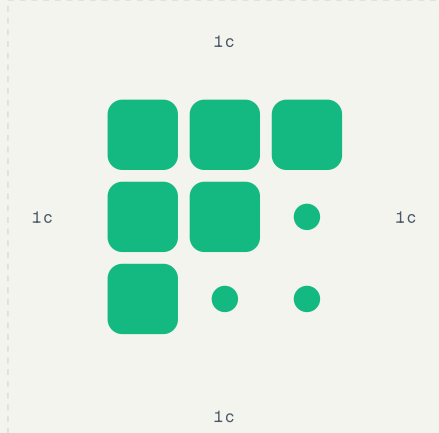

Single flat color · Emerald #14B981 · 100% opacity.
 On dark below $\sim 40px$, switch to Emerald Bright #34D9A2.

CLEAR SPACE

Reserve one cell width ($\approx 48u$) around the entire mark. Nothing — type, edges, seams, other logos — enters that frame.

MINIMUM SIZES

The three signal dots are the legibility floor. Below $16px$ on screen or $2''$ in embroidery, drop the dots — use the six cells only.

64px

32px

24px

16px

DON'T

× recolor cells

× rearrange cells

× add effects

× stretch

framework/ops

Geist Mono, weight 500, all lowercase, tight tracking. The slash is functional and always emerald — it is the bridge between framework (what you build) and ops (what you run).

framework / ops

SETTING

Family Geist Mono

Weight 500 (Medium)

Case lowercase, always

Tracking −2%

Leading 100%

SLASH RULES

Color is always `#14B981`. No spaces around it. Use the standard ASCII slash `" / "`, not the unicode division slash. Never substitute a hyphen or pipe.

SPOKEN / WRITTEN

"Framework Ops" when speaking. In body copy the slash is optional: `framework/ops` in interfaces and headers; *Framework Ops* in prose.

Five forms, one identity.

Horizontal is the default — use it 80% of the time. Stacked for square crops. Mark-only for favicons and avatars. Wordmark-only for body text contexts where the mark would be too loud.

framework/ops

Tokens, not shades.

Twelve roles. Each has a job. Don't invent new values — if a use case doesn't fit, lean on the existing token's role and adjust opacity instead.

NAME	TOKEN	HEX	RGB	ROLE
 Ink	<code>--fo-ink</code>	#07182B	7, 24, 43	Primary brand. Backgrounds, dark surfaces, body text on light bg.
 Ink Deep	<code>--fo-ink-deep</code>	#030B17	3, 11, 23	Full-bleed / abyss. Footers, hero darks, splash.
 Surface	<code>--fo-surface</code>	#0F2940	15, 41, 64	Elevated card on Ink. Inputs, sidebars, panels.
 Hairline	<code>--fo-hairline</code>	#1B3A57	27, 58, 87	1px borders on Ink. Dividers, subtle separation.
 Emerald	<code>--fo-emerald</code>	#14B981	20, 185, 129	Primary accent. The slash, status, buttons, links.
 Emerald Bright	<code>--fo-emerald-bright</code>	#34D9A2	52, 217, 162	Highlight on dark. Hover, glow, charts.
 Emerald Deep	<code>--fo-emerald-deep</code>	#047857	4, 120, 87	Pressed / underline / dark-mode link.

	Bone	<code>--fo-bone</code>	#F4F4EE	244, 244, 238	Reverse fg on Ink. Soft cards on Paper.
	Paper	<code>--fo-paper</code>	#FAFAF7	250, 250, 247	Default page background light.
	Fog	<code>--fo-fog</code>	#D9DDD5	217, 221, 213	1px borders on light. Dividers, table rules.
	Graphite	<code>--fo-graphite</code>	#4A5868	74, 88, 104	Secondary text on light.
	Ash	<code>--fo-ash</code>	#8893A1	136, 147, 161	Tertiary text on dark. Captions, metadata.

USAGE RATIO

60% Ink or Bone (background) · 30% neutrals (Surface, Fog, Graphite, Ash) · 10% Emerald. The emerald is a scalpel — one moment of accent per view.

CONTRAST

Bone on Ink 14.8:1 ✓ AAA
 Ink on Bone 14.8:1 ✓ AAA
 Emerald on Ink 6.4:1 ✓ AA
 Graphite on Paper 7.2:1 ✓ AAA
 Ash on Ink 5.1:1 ✓ AA

Geist · Geist Mono.

Two families, both open-source from Vercel. Geist for everything readable; Geist Mono for the operational layer — code, identifiers, status, labels.

---	---	---	---	---	--	--

Operational, not aspirational.

- CONCRETE

Name the system. "We rebuilt their dispatch routing." Not "we transformed operations". Specifics make trust.

- MEASURED

Numbers over adjectives. "Cut follow-up from 48h to 2h" beats "blazing fast". If you can't measure it, soften the claim.

- PLAIN

Read it out loud. If a contractor wouldn't say it on a job site, rewrite. No "leverage", no "synergize", no "best-in-class".

✓ SOUNDS LIKE US

- "We build the ops layer home-service companies actually run on."
- "Fractional. Embedded for 90 days. Then you own it."
- "Dispatch routing rebuilt. AI triage on inbound. Done."

× DOESN'T

- "Leveraging cutting-edge AI to transform operations."
- "Unlock your team's true potential."
- "End-to-end synergistic solutions."

Drop in, ship today.

Paste these into your stylesheet, your Tailwind config, or your <head>. Every token in this document is reflected here verbatim.

Merch for operators.

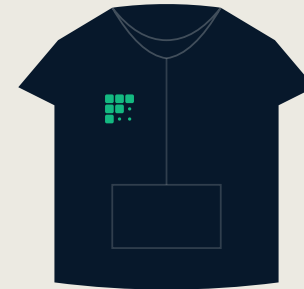

The Constellation mark is the hero — it embroiders cleanly, screen-prints in one color, and reads at the small sizes most apparel demands.

PRINT SPECS

EMBROIDERY

Constellation mark only. Min 2" wide. Pantone 2245 C for emerald, 539 C for ink. Drop the three dots below $\frac{3}{4}$ ".

SCREEN PRINT

One color preferred. Use Bone on Ink garments, Ink on Bone garments. Two-color (mark + emerald dot) for premium runs.

VINYL

Die-cut to mark silhouette + 2mm safe edge. Avoid full-color vinyl decals — single-color always.

SUBSTRATES

Avoid pure-white garments — use Bone heather or natural cotton so the brand reads as warm, not corporate.

Files for your dev & print team.

SVG sources for every primary asset. Right-click → save as. For wordmark SVGs, the system font fallback to monospace is acceptable — for print-perfect runs, render the wordmark in HTML/CSS with Geist Mono loaded, then export.
